Mathletics

The screenshot shows the Mathletics user interface for a student named Mutahar Ali. The interface is divided into several sections:

- Header:** Displays the user's name "Mutahar Ali", school "Kingsgate Primary School", and group "ROWAN Group 1". A UK flag is also visible.
- Navigation:** Includes buttons for "Home", "Live Mathletics", and "Activities".
- My Daily Points:** Shows a current score of 0.
- Points This Week:** A vertical bar chart showing progress towards 800 points.
- My Awards:** Shows 0 Gold Bars and 180 more to go.
- Activities List:** A central list of activity categories:
 - N - Number and Place Value
 - N - Add and Subtract Mental
 - N - Add and Subtract Written
 - N - Add and Subtract Decimals
 - N - Multiply and Divide Facts
 - N - Multiply and Divide Mental
 - N - Multiply and Divide Written
 - N - Fractions
- Right Sidebar:** Contains icons for "Activities", "Problem Solving", "Concept Search", "Rainforest Maths", "Times Tables, Toons", and "Spellodrome".

Top Marks

The screenshot shows the Top Marks website interface. At the top, there is a navigation bar with the Top Marks logo and links for Search, Whiteboard Resources, Learning Games, Parents' Resources, and Topmarks Blog. Below this is a filter bar with buttons for years 1 through 12+. The main content area features a sidebar with 'Maths' and 'English' categories, and a central section titled 'Choose a Category:' with a list of math topics. The 'Times Tables' category is highlighted, and a sub-section titled 'Times Tables Games' provides a brief description of the games.

Times Tables Games

Maths games can be a fun way to learn the times tables. These times tables games have been selected to provide practise for children who are beginning to understand the concepts of multiplying numbers. They provide the repetition necessary for children to consolidate their knowledge of times tables and they include games involving factors and multiples.

Top Marks - Hit the Button

Hit the Button app available!

The app interface features a blue background with a diagonal split. The title "Hit the Button" is written in large, orange, bubbly letters. Below the title are six circular buttons with silver borders, each containing a math topic: "Number Bonds" (green), "Doubles" (yellow), "Halves" (yellow), "Times Tables" (orange), "Division Facts" (orange), and "Square Numbers" (orange). A small 'X' icon is in the top right corner, and the "Topmarks" logo is in the bottom right corner.

Primary Homework Help

The image shows a game interface for a multiplication exercise. On the right side, there is a multiplication problem: 14×9 . The numbers 14 and 9 are in white, and the multiplication sign is in white with a horizontal line underneath the 9. To the left of this, there is a 3x5 grid of numbers. The top row consists of five red circles containing the numbers 135, 72, 108, 45, and 36. The middle row consists of five cyan circles containing the numbers 18, 27, 99, 63, and 117. The bottom row consists of five grey circles containing the numbers 81, 126, 9, 54, and 90. Each grey circle has a white string and a knot at the bottom, resembling a balloon. At the bottom center of the screen, there is a small cartoon character of a person with a brown hat and a red shirt, looking up at the balloons. In the bottom right corner, the text "score: 0" is displayed in white.

Maths Is Fun

The header of the Maths Is Fun website features a cityscape background with the site's logo on the left. Social media icons for Twitter, YouTube, Facebook, and Google+ are displayed in the top right. A search bar with a 'Search' button is positioned below the social icons. A navigation menu with green buttons lists categories: Home, Algebra, Data, Geometry, Measure, Numbers, Dictionary, Games, Puzzles, and Worksheets. Below this, a row of red buttons lists grade levels: 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, 5th Grade, 6th Grade, 7th Grade, and an 'AdaptedMind' link.

Times Tables Games

Learning multiplication facts can be a pain, but not when you have access to lots of cool times tables games which will enable you to practise while having fun. It's important to get your knowledge of times tables really secure, with instant recall of the facts up to at least 10 x 10. This is because future maths skills build on this knowledge, and without it you will struggle later on. It's a good idea to keep practising from time to time too, because if you don't use it you might lose it!
