02.11.23   **<u>Year 6</u>**

1. Read your reading book for 30 minutes each night.
2. Practise your times tables for 10 minutes each night and complete your maths worksheet.
3. Practise your spellings from your log book.
4. If you can, play Hit the Button and Timestable Rockstars for about 10 minutes each night.

Computing Homework

In Computing, we have been using Tinkercad to identify and use 3D shapes needed to create 3D models.

Find some 3D objects in your home, such as a chest of drawers, a shoe rack, a TV unit or a table. Examine the objects and look for the 3D shapes that make up the object. For example, a table might be made up of four cylinders (the legs) and a cuboid (the main surface).

Draw the items in your home you find and label the different 3D shapes it is made up of.

Homework is due on: 07.11.23
